# Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs)

Vladimir S. Bagotsky

**Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs)** Vladimir S. Bagotsky

The comprehensive, accessible introduction to fuel cells, their applications, and the challenges they pose

Fuel cells—electrochemical energy devices that produce electricity and heat—present a significant opportunity for cleaner, easier, and more practical energy. However, the excitement over fuel cells within the research community has led to such rapid innovation and development that it can be difficult for those not intimately familiar with the science involved to figure out exactly how this new technology can be used. *Fuel Cells: Problems and Solutions, Second Edition* addresses this issue head on, presenting the most important information about these remarkable power sources in an easy-to-understand way.

Comprising four important sections, the book explores:

- The fundamentals of fuel cells, how they work, their history, and much more
- The major types of fuel cells, including proton exchange membrane fuel cells (PEMFC), direct liquid fuel cells (DLFC), and many others
- The scientific and engineering problems related to fuel cell technology
- The commercialization of fuel cells, including a look at their uses around the world

Now in its second edition, this book features fully revised coverage of the modeling of fuel cells and small fuel cells for portable devices, and all-new chapters on the structural and wetting properties of fuel cell components, experimental methods for fuel cell stacks, and nonconventional design principles for fuel cells, bringing the content fully up to date.

Designed for advanced undergraduate and graduate students in engineering and chemistry programs, as well as professionals working in related fields, *Fuel Cells* is a compact and accessible introduction to the exciting world of fuel cells and why they matter.

### **From reader reviews:**

#### **Ruby Carter:**

Have you spare time for a day? What do you do when you have more or little spare time? Yep, you can choose the suitable activity for spend your time. Any person spent all their spare time to take a stroll, shopping, or went to typically the Mall. How about open or read a book called Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs)? Maybe it is being best activity for you. You recognize beside you can spend your time along with your favorite's book, you can wiser than before. Do you agree with their opinion or you have different opinion?

#### **Jesse Hooker:**

As people who live in the actual modest era should be revise about what going on or information even knowledge to make all of them keep up with the era that is always change and make progress. Some of you maybe will update themselves by studying books. It is a good choice to suit your needs but the problems coming to you actually is you don't know which you should start with. This Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs) is our recommendation to make you keep up with the world. Why, since this book serves what you want and wish in this era.

#### **Ida Acord:**

This Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs) tend to be reliable for you who want to be a successful person, why. The reason why of this Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs) can be one of several great books you must have is usually giving you more than just simple examining food but feed anyone with information that probably will shock your earlier knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions in the e-book and printed ones. Beside that this Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs) giving you an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we know it useful in your day task. So , let's have it appreciate reading.

#### **Ruth Lowry:**

A lot of guide has printed but it differs from the others. You can get it by world wide web on social media. You can choose the best book for you, science, amusing, novel, or whatever by means of searching from it. It is referred to as of book Fuel Cells: Problems and Solutions (The ECS Series of Texts and Monographs). Contain your knowledge by it. Without leaving the printed book, it could possibly add your knowledge and make you happier to read. It is most critical that, you must aware about book. It can bring you from one place to other place.
