## El universo no es plano (Spanish Edition) Miguel Pedrero

Los viajes de los grandes navegantes como Colón, Magallanes o Elcano hicieron a la sociedad de la época rendirse ante la evidencia de que la Tierra no era plana. Los hechos corroboraron una teoría que los sistemas de creencias de la época rechazaban por su heterodoxia. En el siglo XXI, la física cuántica propone una ruptura similar, afirmando con la teoría de cuerdas que en nuestro universo hay dimensiones de la realidad que escapan a nuestra percepción y que, teóricamente, es posible saltar de unas a otras y, por lo tanto, viajar más allá de los límites del espacio y del tiempo que conocemos.

Miguel Pedrero, redactor y reportero de la revista Año Cero, nos acerca a estos nuevos paradigmas con un lenguaje sencillo y ameno, y nos invita a revisarlos a la luz de muchos de los fenómenos que, permaneciendo aún sin explicar por la comunidad científica, encajan en estos hipotéticos modelos del salto entre dimensiones.

\*¿Son los ovnis, las apariciones milagrosas o las comunicaciones con personas fallecidas ejemplos de visitantes de otros planos de la realidad?

\*¿Son el sueño lúcido, el viaje astral u otros estados alterados de consciencia nuestros vehículos interdimensionales?

\*¿Son la telepatía y la precognición pruebas de que el espacio-tiempo no son límites para el ser humano)?

\*¿Evidencian estos fenómenos que el universo y la realidad no son como todavía algunos nos quieren seguir contando?

#### **Bertha Boone:**

Information is provisions for anyone to get better life, information presently can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider whenever those information which is from the former life are challenging to be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you receive the unstable resource then you have it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take El universo no es plano (Spanish Edition) as your daily resource information.

#### **Rodolfo Buker:**

As a university student exactly feel bored in order to reading. If their teacher requested them to go to the library in order to make summary for some book, they are complained. Just small students that has reading's spirit or real their pastime. They just do what the professor want, like asked to go to the library. They go to presently there but nothing reading critically. Any students feel that reading is not important, boring along with can't see colorful photos on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this El universo no es plano (Spanish Edition) can make you sense more interested to read.
