Comedy and Distinction: The Cultural Currency of a 'Good' Sense of Humour Sam Friedman

Comedy is currently enjoying unprecedented growth within the British culture industries. Defying the recent economic downturn, it has exploded into a booming billion-pound industry both on TV and on the live circuit. Despite this, academia has either ignored comedy or focused solely on analysing comedians or comic texts. This scholarship tends to assume that through analysing an artist's intentions or techniques, we can somehow understand what is and what isn't funny. But this poses a fundamental question – *funny to whom?* How can we definitively discern how audiences react to comedy?

Comedy and Distinction shifts the focus to provide the first ever empirical examination of British comedy *taste*. Drawing on a large-scale survey and in-depth interviews carried out at the Edinburgh Festival Fringe, the book explores what types of comedy people like (and dislike), what their preferences reveal about their sense of humour, how comedy taste lubricates everyday interaction, and how issues of social class, gender, ethnicity and geographical location interact with patterns of comic taste. Friedman asks:

- Are some types of comedy valued higher than others in British society?
- Does more 'legitimate' comedy taste act as a tangible resource in social life – a form of cultural capital?
- What role does humour play in policing class boundaries in contemporary Britain?

This book will be of interest to students and scholars of sociology, social class, social theory, cultural studies and comedy studies.
