## **Papeles de Recienvenido (Spanish Edition)** Macedonio Fernández

En Papeles de Reciénvenido, Macedonio Fernández entrelaza metafísica, humor, teoría y novela. Desde la organización misma del libro —cartas, salutaciones, discursos, capítulos sin continuidad— donde el entrometimiento de lo insólito fracciona el discurso y la sucesión temporal, hasta convertir las ideas en objetos concretos construyendo un universo sin elementos sacados de la vida real. Para ello expone un proyecto literario que se aleje de todo aquello que implique descripción o imitación de las tramas cotidianas de la vida. Para lograr la perpetuidad de la obra de arte, Macedonio Fernández propone despojarse de los preceptos tradicionales de la literatura realista, como la coherencia en el lenguaje, desestabilizando el procedimiento artístico y la estabilidad intelectual.

... Construyamos una espiral tan retorcida que canse al viento andar en su interior, y de ella salga mareado olvidando su rumbo; construyamos una novela así que por una vez no sea clara, fiel copia realista. O el arte está demás o nada tiene que ver con la realidad; solo así es el real, así como los elementos de la realidad no son copias unos de otros.
