## India's National Security: Annual Review 2009

Each year, this annual gives readers an in-depth and up-to-date account of India's external and internal threats in a deteriorating global security environment. It shows that while partnerships with some countries have strengthened, anxieties persist with others such as China and Pakistan. Similarly, India has not been able to cope with the challenges of internal security emerging from violence in Kashmir, insurgency in the northeast, to mention a few. A unique series with contributions from academics, political commentators and military personnel.
