Born to Fly Michael Ferrari

Born to Fly tells the story of eleven-year-old tomboy Bird McGill. Ever since she can remember, Bird has loved flying in small propeller airplanes with her mechanic dad. When the local airstrip is turned into a military flight school, Bird is in heaven. But when a young Japanese American student named Kenji Fujita joins Bird's class, the entire school seems to be convinced that he's a spy, or at the very least, that he and his uncle want the Japanese to win. Bird is wary of Kenji, not just because he's Japanese, but because he steals her flight-related topic for a school report and leaves her to write about the deadly boring local marsh weed. But on Bird's first trip to the marsh, she and Kenji accidentally discover *real* spy activity in the area. Bird realizes that Kenji is actually a stand-up guy—and she and Kenji begin an adventure that will shake the town and may even change the future of the United States.
