Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics)

John P. Buonaccorsi

Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics) John P. Buonaccorsi

Over the last 20 years, comprehensive strategies for treating measurement error in complex models and accounting for the use of extra data to estimate measurement error parameters have emerged. Focusing on both established and novel approaches, **Measurement Error: Models, Methods, and Applications** provides an overview of the main techniques and illustrates their application in various models. It describes the impacts of measurement errors on naive analyses that ignore them and presents ways to correct for them across a variety of statistical models, from simple one-sample problems to regression models to more complex mixed and time series models.

The book covers correction methods based on known measurement error parameters, replication, internal or external validation data, and, for some models, instrumental variables. It emphasizes the use of several relatively simple methods, moment corrections, regression calibration, simulation extrapolation (SIMEX), modified estimating equation methods, and likelihood techniques. The author uses SAS-IML and Stata to implement many of the techniques in the examples.

Accessible to a broad audience, this book explains how to model measurement error, the effects of ignoring it, and how to correct for it. More applied than most books on measurement error, it describes basic models and methods, their uses in a range of application areas, and the associated terminology.

From reader reviews:

Jay Burke:

This Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics) are generally reliable for you who want to be described as a successful person, why. The key reason why of this Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics) can be on the list of great books you must have is giving you more than just simple reading through food but feed you with information that probably will shock your earlier knowledge. This book is actually handy, you can bring it everywhere and whenever your conditions both in e-book and printed ones. Beside that this Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics) giving you an enormous of experience for instance rich vocabulary, giving you trial of critical thinking that we know it useful in your day pastime. So , let's have it appreciate reading.

Karla Whisenant:

People live in this new moment of lifestyle always attempt to and must have the free time or they will get lots of stress from both day to day life and work. So , when we ask do people have extra time, we will say absolutely yes. People is human not really a robot. Then we consult again, what kind of activity are you experiencing when the spare time coming to an individual of course your answer will probably unlimited right. Then do you try this one, reading ebooks. It can be your alternative in spending your spare time, the particular book you have read is actually Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics).

Kimberly Rubio:

Playing with family inside a park, coming to see the ocean world or hanging out with good friends is thing that usually you will have done when you have spare time, in that case why you don't try issue that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics), you could enjoy both. It is good combination right, you still wish to miss it? What kind of hang-out type is it? Oh come on its mind hangout men. What? Still don't obtain it, oh come on its identified as reading friends.

Jennifer Pittman:

As we know that book is vital thing to add our information for everything. By a publication we can know everything we really wish for. A book is a set of written, printed, illustrated or even blank sheet. Every year was exactly added. This e-book Measurement Error: Models, Methods, and Applications (Chapman & Hall/CRC Interdisciplinary Statistics) was filled regarding science. Spend your spare time to add your knowledge about your scientific research competence. Some people has distinct feel when they reading some

sort of book. If you know how big benefit of a book, you can truly feel enjoy to read a book. In the modern era like today, many ways to get book that you just wanted.
