The Public Benefit of Energy Efficiency to the State of Massachusetts Mark A. Bernstein

The future of energy consumption, prices, and intensity remains uncertain, but this analysis suggests that greater energy efficiency has had, and may continue to have, a positive effect on the Massachusetts economy. Together, targeted energyefficiency programs in commercial, industrial, and residential sectors have the potential to continue to provide benefits to Massachusetts, and they remain a costeffective option for meeting the state's increasing energy demand. The authors show that savings from commercial and industrial energyefficiency programs have provided a positive return on utility investment, and they demonstrate benefits of energy efficiency for Massachusetts households, particularly for low income households.
