## Modelling the IS Heavy Tank (Osprey Modelling) Nicola Cortese

The IS (Iosef Stalin) heavy tanks were some of the most widely used AFVs produced by the USSR. First entering combat in 1944, the IS-2 went head-to-head with German tanks such as the Panther, Tiger and King Tiger, and post war IS-2s and IS-3s were exported to China, Cuba and North Korea. This book is packed with easy to follow super-detailing and finishing instructions for building the IS-2, IS-3, and IS-3M variants, as well as for the prototype ISU-152, and features kits from manufacturers such as Dragon, Tamiya, and Fujimi. Advanced scratch-building techniques and working with photo-etched and other after-market accessories in 1/35 and 1/76 scales are covered, making this highly accessible book a welcome addition to any modeller's library.
