Peter Huber, Mark P. Mills

The Bottomless Well: The Twilight of Fuel, the Virtue of Waste, and Why We Will Never Run Out of Energy Peter Huber, Mark P. Mills

The sheer volume of talk about energy, energy prices, and energy policy on both sides of the political aisle suggests that we must know something about these subjects. But according to Peter W. Huber and Mark P. Mills, the things we think we know are mostly myths. A better understanding of energy will radically change our views and policies on a number of very controversial issues. In *The Bottomless Well*, Huber and Mills show why energy is not scarce, why the price of energy doesn't matter very much, and why "waste" of energy is both necessary and desirable. Across the board, energy isn't the problem; energy is the solution.
