Broken Parts Missing Pieces Don Johnson

Many of us have sought insights from the experience of ancient cultures for the kind of wisdom that impacts and transforms our lives in the modern world. Johnson leaves nothing to abstraction in the connections he makes between the microcosm of his inner world – formed in the crucible of Native American tribal life – and the macrocosm of Western Civilization. From a Western European perspective, Johnson's work is a form of confessional literature or biographical history. Yet, clearly, the unwinding of his literary method flows more centrally from the core traditions of indigenous peoples and their leaders who have classically given guidance and instruction directly from the content of their inner world of dreams, visions and intimate narratives of personal journey.
