Socialization and Aggression (Recent Research in Psychology)

Socialization and Aggression (Recent Research in Psychology)

Authors from Europe and the USA give a summary in this book of the current psychological knowledge about the socialization determinants of human aggressive behavior development and outline theoretical perspectives as well as directions of future research.

Thus, the volume includes theoretical and conceptual chapters concerning socialization and sources of aggression (Part I), chapters presenting a summary of empirical research on early developmental determinants of aggressive and antisocial behavior patterns (Part II), chapters on the effects of social norms and education on aggression in children and youth (Part III), and finally contributions analyzing relationship between aggression as a psychological phenomenon and socio-cultural phenomena and processes (Part IV).

The contributing authors have outstanding research experience and significant publications on socialization and aggression development. Their studies are embedded in various philosophical traditions and specific socio-cultural experiences; the book therefore provides a wide range of approaches and syntheses of current research.
