This course is for the older student of any age. It includes the ten year old who is too far advanced mentally to play pieces with childish titles; the adult of any age from ten on who never had lessons; and the person who studied in childhood and now needs a refresher course.

This method is designed for those who want to do more than fit a melody to a few chords learned by rote. It teaches the student to read music so that he or she will be able to play "on his or her own."
