Homosexuality and Male Bonding in Pre-Nazi Germany: the youth movement, the gay movement, and male bonding before Hitler's rise Hubert Kennedy

This is a landmark publication featuring English translations of selections from the early gay German journal, *Der Eigene*. This collection, previously scattered and difficult to read in the original German, allows readers direct access to primary source material on the early gay movement. Neglected for years, these articles provide insight into the early gay movement, particularly in its relation to the various political currents in pre-World War II Germany. Simultaneously, the essays are relevant to current discussions and debates in contemporary gay, women's, and youth movements. Masterly introductory and concluding essays add additional insight by placing the articles in their historical context, discussing their past and current significance, and drawing lessons for the future. Readers of all levels of sophistication will find this anthology a fascinating look at homosexuality in early years.
