??“??”?

The procuratorial system of People’s Republic of China is nearing the end of its 64th year. If the historical origin is taken into consideration, it is already over 80 years old. Most people only see its bright side, and little have they known about its tortuous journey. As the writer, I don't have the time to fully understand and introduce new China's procuratorial system, nor do I have the capacity. I only hope that, with this book, people can develop interests in researching, studying and learning the procuratorial system which is full of peculiar colors. And that is why I call this book “an overview”.
