Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics) Claire Voisin

The 2003 second volume of this account of Kaehlerian geometry and Hodge theory starts with the topology of families of algebraic varieties. Proofs of the Lefschetz theorem on hyperplane sections, the Picard–Lefschetz study of Lefschetz pencils, and Deligne theorems on the degeneration of the Leray spectral sequence and the global invariant cycles follow. The main results of the second part are the generalized Noether–Lefschetz theorems, the generic triviality of the Abel–Jacobi maps, and most importantly Nori's connectivity theorem, which generalizes the above. The last part of the book is devoted to the relationships between Hodge theory and algebraic cycles. The book concludes with the example of cycles on abelian varieties, where some results of Bloch and Beauville, for example, are expounded. The text is complemented by exercises giving useful results in complex algebraic geometry. It will be welcomed by researchers in both algebraic and differential geometry.

From reader reviews:

Mary Redus:

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to learn everything in the world. Each guide has different aim as well as goal; it means that reserve has different type. Some people feel enjoy to spend their the perfect time to read a book. They may be reading whatever they have because their hobby is reading a book. Why not the person who don't like examining a book? Sometime, man or woman feel need book when they found difficult problem or perhaps exercise. Well, probably you will require this Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics).

Michael Parker:

Book is to be different for each and every grade. Book for children till adult are different content. We all know that that book is very important for all of us. The book Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics) had been making you to know about other information and of course you can take more information. It is quite advantages for you. The publication Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics) is not only giving you far more new information but also to become your friend when you experience bored. You can spend your current spend time to read your book. Try to make relationship with all the book Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics). You never really feel lose out for everything in the event you read some books.

Julie Harris:

In this 21st one hundred year, people become competitive in each way. By being competitive now, people have do something to make these individuals survives, being in the middle of the particular crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated this for a while is reading. Sure, by reading a book your ability to survive enhance then having chance to endure than other is high. For yourself who want to start reading any book, we give you this particular Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics) book as beginner and daily reading guide. Why, because this book is greater than just a book.

Devin Glass:

Don't be worry in case you are afraid that this book will filled the space in your house, you may have it in e-book means, more simple and reachable. This kind of Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics) can give you a lot of good friends because by you considering this one book you have issue that they don't and make you actually more like an interesting person. This kind of book can be one of one step for you to get success. This reserve offer you information that maybe your friend doesn't understand, by knowing more than other make you to be great men and

women. So , why hesitate? We need to have Hodge Theory and Complex Algebraic Geometry II: Volume 2 (Cambridge Studies in Advanced Mathematics).
