Their bond is heaven on earth...but it could tear their pack apart.

Ethan Jager is forced to hide behind a false identity as his pack mates suffer under Michael Tanner's rule. It's not his choice; he was born broken, without the primitive urge to breed driving him to pick a mate.

While his wolf sleeps, his heart has chosen for him: Noah, widower and fellow pack dominant.

Everything changes the day Hannah Kagan smiles at him. Lust awakens his wolf--a first. Hannah is beautiful, loyal, kind, everything an alpha male should want. And mating her will allow him to reclaim his pack. It will also leave his soul with a giant hole when he's forced to rip Noah out of his life.

Hard choices are required of alpha males, but choosing which lover to let go is one Ethan refuses to make. The alternative will not only change the pack, but transform their world...if he can keep his mates alive long enough to claim them both.

Warning: Contains an alpha male whose wolf doesn't like to share his toys, a dominant female who's nobody's plaything, and a beta male who doesn't roll over for anyone. Also: speed dating, werewolf style. Band-Aids required.
